Abstracts

Event Registration And Ticketing software helps facilitate attendee registration and allows event planners to track and manage their guest lists. Using these programs, attendees can purchase tickets or register for free events, and event planners are provided with guest list information. These products can streamline the process of registering attendees and receiving payment prior to an event, as well as organizing the registration process day-of.

Event registration and ticketing is often provided as a feature of event management platforms, but there are many standalone products as well. Some solutions offer additional event management functionality such as event directories, venue management, reserved seating, and mobile event apps.

According to our (Global Info Research) latest study, the global Event Registration and Ticketing Software market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period.
