Abstracts

According to our (Global Info Research) latest study, the global ORC Waste Heat To Power market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

ORC waste heat to power is a technology that converts industrial waste heat into electric energy. ORC is the abbreviation of Organic Rankine Cycle. It is a thermodynamic cycle system that uses organic working fluid instead of water to drive a turbine generator to generate electricity. ORC waste heat power generation technology has a wide range of applications, and can be applied to waste heat utilization in various industrial production processes, as well as energy utilization in automobiles, solar energy, biomass and other fields. This technology can improve energy utilization efficiency, reduce energy consumption and exhaust emissions, and has a very broad market prospect.

This report is a detailed and comprehensive analysis for global ORC Waste Heat To Power market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:

+44 20 8123 2220
info@marketpublishers.com

Global ORC Waste Heat To Power market size and forecasts, in consumption value ($ Million), 2018-2029

Global ORC Waste Heat To Power market size and forecasts by region and country, in consumption value ($ Million), 2018-2029

Global ORC Waste Heat To Power market size and forecasts, by Type and by Application, in consumption value ($ Million), 2018-2029

Global ORC Waste Heat To Power market shares of main players, in revenue ($ Million), 2018-2023

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for ORC Waste Heat To Power

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global ORC Waste Heat To Power market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Alfa Laval, Durr, EON Energy, Turboden S.p. A and Kaishan USA, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Market segmentation

ORC Waste Heat To Power market is split by Type and by Application. For the period 2018-2029, the growth among segments provide accurate calculations and forecasts for consumption value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

+44 20 8123 2220
info@marketpublishers.com

Low Temperature Power Generation (100?~200?)

Medium Temperature Power Generation (200?~350?)

High Temperature Power Generation (350?~600?)

Market segment by Application

Industrial Cogeneration

Automotive Cogeneration

Biological Cogeneration

Market segment by players, this report covers

Alfa Laval

Durr

EON Energy

Turboden S.p. A

Kaishan USA

Siemens AG

Boustead International Heaters

TransPacific Energy Inc.

General Electric

Strebl Energy Pvt Ltd

Mitsubishi Hitachi Power Systems

+44 20 8123 2220
info@marketpublishers.com

Ltd. Climeon AB, and IHI Corporation

Market segment by regions, regional analysis covers

North America (United States, Canada, and Mexico)

Europe (Germany, France, UK, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Japan, South Korea, India, Southeast Asia, Australia and Rest of Asia-Pacific)

South America (Brazil, Argentina and Rest of South America)

Middle East & Africa (Turkey, Saudi Arabia, UAE, Rest of Middle East & Africa)

The content of the study subjects, includes a total of 13 chapters:

Chapter 1, to describe ORC Waste Heat To Power product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top players of ORC Waste Heat To Power, with revenue, gross margin and global market share of ORC Waste Heat To Power from 2018 to 2023.

Chapter 3, the ORC Waste Heat To Power competitive situation, revenue and global market share of top players are analyzed emphatically by landscape contrast.

Chapter 4 and 5, to segment the market size by Type and application, with consumption value and growth rate by Type, application, from 2018 to 2029.

Chapter 6, 7, 8, 9, and 10, to break the market size data at the country level, with revenue and market share for key countries in the world, from 2018 to 2023.and ORC Waste Heat To Power market forecast, by regions, type and application, with consumption value, from 2024 to 2029.

Chapter 11, market dynamics, drivers, restraints, trends, Porters Five Forces analysis, and Influence of COVID-19 and Russia-Ukraine War

+44 20 8123 2220
info@marketpublishers.com

Chapter 12, the key raw materials and key suppliers, and industry chain of ORC Waste Heat To Power.

Chapter 13, to describe ORC Waste Heat To Power research findings and conclusion.
