## Abstracts

With people becoming more medically aware and health conscious, organic cereals for breakfast are going to be the first option for them. This is because organic cereals are produced by the farmers through reusable resources. They are natural and thus, have minimal or no chemicals or pesticides. Offering various functional health benefits, organic minerals carry lots of minerals and vitamins.

### SCOPE OF THE REPORT:

This report focuses on the Organic Cereals in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Popular organic cereals are made from many grains but primarily from barley, coconut, corn, and nut. Their nutritional value doubles as most consumers consume them with milk, fruits, and yogurt. Therefore, due to the health benefits they offer, organic cereals are a strong market. Apart from rising health awareness among consumers, other factors that are having a positive impact on the global organic cereals market include changing consumer preferences, and inclination towards the western dietary pattern. The popularity of convenience foods based on the minimal preparation time required also boosts the growth. Working population likes breakfast that is ready by just putting the ingredients in milk. The key players in this market are emphasizing on product innovations and introducing more varieties of organic cereals to match the changing taste of consumers around the world.

The worldwide market for Organic Cereals is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
