Abstracts

Hair color, also known as hair colorant or hair dye, is the sub-segment of the broad category of hair care products. Hair color products contribute to more than one-fifth of the global hair care market. Hair care broadly includes five types of products. These include shampoo, hair color, hair conditioner, hair styling products, and hair oil. The trend of hair care has been growing in the fashion industry due to the global aging population base.

SCOPE OF THE REPORT:

This report focuses on the Organic Hair Color in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Organic hair color is manufactured by using organic ingredients or certified organic ingredients. The ingredients are usually plant based such as henna, dry fruits, various vegetables, flower extracts, and many more. The product might either be 100% organic or many contain certain percentages of synthetic formulations. Organic hair color balances and sustains the hair shaft to prevent breakage and over drying.

The worldwide market for Organic Hair Color is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
