Abstracts

Organic Spices are the ingredients that are not subjected to any chemical treatment in livestock food, fertilizers and processing.

According to our (Global Info Research) latest study, the global Organic Spices market size was valued at USD 19960 million in 2022 and is forecast to a readjusted size of USD 32430 million by 2029 with a CAGR of 7.2% during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

Organic Spices are produced with various techniques used in sustainable farming such as mulching, inter-cropping, and integration of crops & livestock. Increasing demand from food processing industry coupled with shifting preference towards naturally produced foods will drive the organic spice market growth over the forecast timeframe
