According to our (Global Info Research) latest study, the global Organic Vanilla market size was valued at USD 566.7 million in 2023 and is forecast to a readjusted size of USD 920.6 million by 2030 with a CAGR of 7.2% during review period.

Vanilla is a flavoring derived from orchids of the genus *Vanilla*, primarily from the Mexican species, flat-leaved vanilla. Vanilla is the second-most expensive spice after saffron because growing the vanilla seed pods is labor-intensive. Despite the expense, vanilla is highly valued for its flavor. As a result, vanilla is widely used in both commercial and domestic baking, perfume manufacture, and aromatherapy.

Diverse applications of vanilla in various industries owing to its nutritional value is likely to drive its market globally over the review period. Increasing demand for vanilla based on its application in personal care products and healthcare products is projected to propel the growth of this market. Chemical-free nature of organic vanilla represents stored and sustained medicinal properties, which drive the demand for vanilla in its natural form.
