Abstracts

Orthodontics is a form of dental treatment, which is used to improve the alignment, appearance, and improvement of protruding, crowded, or crooked teeth, and to correct problems associated with the bite of the teeth.

SCOPE OF THE REPORT:

This report studies the Orthodontics market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Orthodontics market by product type and applications/end industries.

Increase in aging population and surge in prevalence of dental diseases boost the growth of the global orthodontics market.

The brackets segment occupied the largest share in the orthodontics industry, owing to increase in concerns for facial aesthetics.

Rise in focus of vendors on emerging markets, such as Asia-Pacific and LAMEA, is expected to boost the market growth. LAMEA is projected to witness significant growth in the near future, owing to increase in incidence of dental disorders, rise in geriatric population, and government support to spread awareness about oral hygiene.

The global Orthodontics market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which

cannot be ignored. Any changes from United States might affect the development trend of Orthodontics.

Europe also play important roles in global market, with market size of xx million USD in 2017 and will be xx million USD in 2023, with a CAGR of xx%.
