Abstracts

According to our (Global Info Research) latest study, the global Outdoor Decorative Pillow market size was valued at US\$ 1082 million in 2025 and is forecast to a readjusted size of US\$ 1571 million by 2032 with a CAGR of 5.4% during review period.

An outdoor decorative pillow refers to a cushion or pillow designed specifically for use in outdoor spaces, such as patios, decks, gardens, or poolside areas. Unlike indoor decorative pillows, outdoor pillows are crafted from materials that are durable and weather-resistant to withstand exposure to outdoor elements like sunlight, rain, humidity, and dirt. These pillows are both functional and decorative, enhancing the comfort and aesthetic appeal of outdoor furniture. In 2025, global Outdoor Decorative Pillow production reached approximately 70,133 k units, with an average global market price of around 15 US\$/ Unit. The production capacity of Outdoor Decorative Pillow reaches 88,000 k units, and the industry's gross profit margin is approximately between 30% and 50%.

The market demand for outdoor decorative pillows is mainly driven by the urban residents' enthusiasm for upgrading their semi-outdoor living spaces such as balconies, courtyards, and terraces, the upgrading of leisure lifestyles and the rise of outdoor social scenes, as well as the consumer inspiration inspired by the cross-border integration of home furnishing brands with the gardening and camping industries. With the maturity of functional fabric technologies such as waterproofing, UV protection, quick-drying, and mildew resistance, outdoor pillows significantly enhance the comfort and visual appeal of outdoor furniture while maintaining aesthetics and durability.
