Abstracts

Solid dielectric type pad-mounted switchgear is currently fast growing technology introduced by G&W Electric (U.S.) and is considered as the best alternative when compared to conventional oil insulated pad-mounted switchgears. Solid dielectric insulations make these switchgears suitable for wet and corrosive environment, vertical or horizontal mounting, and use in any altitude. Also, since epoxy is inert and, environmental friendly, no EPA usage restrictions are implied making it easily acceptable in the market.

Scope of the Report:

This report focuses on the Pad Mounted Switchgear in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The increasing demand for Pad Mounted Switchgear drives the market.
