Painting and decoration services refer to professional services that target buildings and interior and exterior spaces, focusing on the surface treatment, painting, spraying, decorative effect construction, and maintenance and renovation of base surfaces such as walls and ceilings.

Driving factors in the painting and decoration services market include steady growth in residential and commercial construction, along with continuous cycles of renovation and refurbishment driven by aging building stock, changing interior design trends and rising expectations for aesthetics and comfort. Urbanization and the expansion of retail, hospitality, office, education and healthcare facilities create recurring demand for both interior and exterior finishing, while stricter building, safety and environmental regulations push end-users toward professional contractors who can correctly apply low-VOC, fire-retardant and specialty coatings. At the same time, growing awareness of brand image and user experience encourages businesses to regularly update color schemes, signage and decorative finishes to attract customers and employees.
