Abstracts

Pallet Conveyor is a type of conveyor that transport pallets from one point to another. It is also a mechanically-operated material handling equipment, which are used to transport material within premises.

Scope of the Report:

This report focuses on the Pallet Conveyor in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The Pallet Conveyor industry concentration is not very high; there are more than one hundreds manufacturers in the world, and high-end products mainly from U.S. and Western European.

Global giant manufactures mainly distributed in U.S. and E.U. The manufacturers in U.S. have a long history and unshakable status in this field. Manufacturers such as Intelligrated and Ssi Schaefer have relative higher level of product's quality. Europe players are concentrated in Germany, like Ssi Schaefer, Dematic, Bosch Rexroth, Beumer, Krones and Witron.

Many companies have several plants, usually locate in the place close to aimed consumption region. There are international companies set up factories in China either, such as Dematic whose plant is located in Jiangsu province. Some companies usually take a joint venture enter into aim market.

Pallet conveyor is mainly used for long-distance transmission and large-scale logistics and distribution centers for the deeply automated manufacturing processes.

Large projects are usually undertaken by international giants. Intense competition on price occurs normally between smaller enterprises.

In terms of downstream industry distribution, the food and beverage manufacturers occupy the largest proportion, and the share is still rising, which reached to 37% in 2016, followed by various types of retail and logistics companies, accounting for 35%.

The pallet conveyor is a heavy duty pallet conveyor, which is usually accompanied by a complete set of systems. Customers rarely purchase the equipment separately, so it is often difficult to accurately determine the price of the entire product. According to our interview, the price level set by the native Chinese enterprises is around 520-600 USD/liner meter. But for international brands, the price level is at least at 880 USD/liner meter. The price gap occurs mainly because of the different choices of raw materials, dosage and different quality requirements.

Company mergers and acquisitions, and inter-companies cooperation have occurred for development and growth. As the downstream consumption usually follows with developed and rapid economic growth areas, such as BRICS, the developed areas' company prefers investing to underdevelopment regions these years.

This industry is affected by the economy and policy, so it's important to put an eye to economic indexes and leaders' prefer. With the global economic recovery, more and more people pay attention to rising environment standards, especially in underdevelopment regions that have a large population and fast economic growth, the need of Pallet Conveyor will increase.

The worldwide market for Pallet Conveyor is expected to grow at a CAGR of roughly 6.8% over the next five years, will reach 2390 million US\$ in 2023, from 1610 million US\$ in 2017, according to a new GIR (Global Info Research) study.

Other

There are 15 Chapters to deeply display the global Pallet Conveyor market.

Chapter 1, to describe Pallet Conveyor Introduction, product scope, market overview, market opportunities, market risk, market driving force;

Chapter 2, to analyze the top manufacturers of Pallet Conveyor, with sales, revenue, and price of Pallet Conveyor, in 2016 and 2017;

Chapter 3, to display the competitive situation among the top manufacturers, with sales, revenue and market share in 2016 and 2017;

Chapter 4, to show the global market by regions, with sales, revenue and market share of Pallet Conveyor, for each region, from 2013 to 2018;

Chapter 5, 6, 7, 8 and 9, to analyze the market by countries, by type, by application and by manufacturers, with sales, revenue and market share by key countries in these regions;

Chapter 10 and 11, to show the market by type and application, with sales market share and growth rate by type, application, from 2013 to 2018;

Chapter 12, Pallet Conveyor market forecast, by regions, type and application, with sales and revenue, from 2018 to 2023;

Chapter 13, 14 and 15, to describe Pallet Conveyor sales channel, distributors, traders, dealers, Research Findings and Conclusion, appendix and data source
