According to our (Global Info Research) latest study, the global Pallet Pooling market size was valued at USD 9304.9 million in 2023 and is forecast to a readjusted size of USD 13320 million by 2030 with a CAGR of 5.3% during review period.

A pallet pooling company manages pallets for pallet user. Instead of buying own supply of pallets, pallet user rent them from a shared pool. The pallet pooling company ensures that a supply of pallets in good repair and ready for use arrives at pallet user's facilities when they need them. A pallet pooling service provider takes care of the reverse logistics throughout the supply chain needed to recover these pallets for reuse by pallet user.

Due to cost and a need to focus on core business, pallet pooling becomes more and more common. Some pallet suppliers supply users with reusable pallets, sometimes with integral tracking devices. A pallet management company can help supply, clean, repair, and reuse pallets.
