## Abstracts

A panoramic sunroof is a large sunroof that covers the entire roof of a vehicle, or the vast majority of it. It is significantly larger than a traditional sunroof, and may be tinted or clear.

Panoramic roof systems are a new type of large or multi-panel moon-roof, which offer openings above both the front and rear seats and may be operable or fixed glass panels. Large operable openings are often accomplished with top-slider (tracks in the top of the roof) or spoiler type mechanisms.
