## Abstracts

The global Party Equipment Rental Service market size is expected to reach \$ 2164 million by 2032, rising at a market growth of 5.9% CAGR during the forecast period (2026-2032).

To address the high equipment purchase costs, low usage frequency, complex professional debugging, and temporary resource shortages in event planning, event equipment rental services have emerged. With the diversification of social activities, the rise of the experience economy, and the popularization of sharing models, this service has gradually developed into a crucial supporting link in the field of event planning and execution since the beginning of the 21st century. Currently, event equipment rental services have formed a multi-category, modular professional service system covering audio-visual and lighting systems, stage trusses, catering equipment, interactive entertainment devices, and thematic atmosphere creation props. It is widely used in corporate celebrations, wedding performances, theme parties, community events, and family gatherings, significantly reducing event preparation costs, improving the professionalism of equipment, ensuring event effectiveness, and providing organizers with flexible and efficient resource integration capabilities.

As an important vehicle for light-asset operations, party equipment rental services are entering a golden age of development with the prosperity of the event economy and technological innovation. By accurately grasping market demand, innovating service models, and strengthening technological empowerment, companies can break through in fierce competition and achieve sustainable growth.
