As passenger cars age and accumulate mileage, the need for maintenance and replacement parts increases. Many vehicle components have a finite lifespan, leading to a steady demand for replacement parts and aftermarket services. Modern vehicles are designed to last longer and be more durable. This trend has resulted in an extended lifespan for passenger cars, driving the need for aftermarket parts and services to keep these vehicles on the road. Many car owners prefer to perform do-it-yourself (DIY) repairs and maintenance to save on labor costs. This preference fuels the demand for aftermarket parts, tools, and accessories that cater to DIY enthusiasts. Advancements in automotive technology, including features like advanced infotainment systems, safety systems, and connectivity solutions, create opportunities for aftermarket businesses to provide upgrades, replacements, and repairs for these components.
