Abstracts

According to our (Global Info Research) latest study, the global Patient Management and Monitoring App market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

A patient management and monitoring app is a software application that helps healthcare providers and patients streamline the management and monitoring of healthcare services. It typically includes features such as:

Patient profiles: The app stores and organizes patient information, including medical history, demographics, and contact details.

Appointment scheduling: Patients can schedule and manage their appointments with healthcare providers, reducing the need for phone calls or in-person visits.

Electronic health records (EHR): The app allows healthcare providers to access and update patient records electronically, facilitating efficient and accurate documentation.

Prescription management: Providers can electronically prescribe medications, and patients can receive reminders and track their medication adherence.

Remote monitoring: The app enables remote monitoring of patients' health parameters, such as vital signs, through wearable devices or connected medical devices. Data can be transmitted in real-time, allowing healthcare providers to monitor patients' conditions

and intervene as needed.

Communication and messaging: Secure messaging features enable secure communication between patients and healthcare providers, facilitating quick consultations and addressing non-emergency concerns.

Health education and resources: The app may provide educational materials, resources, and personalized recommendations to help patients manage their health and make informed decisions.

Integration with other healthcare systems: Integration with hospital information systems, laboratory systems, or health insurance systems can enhance data sharing, streamline workflows, and improve coordination of care.

This report is a detailed and comprehensive analysis for global Patient Management and Monitoring App market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:

Global Patient Management and Monitoring App market size and forecasts, in consumption value ($ Million), 2018-2029

Global Patient Management and Monitoring App market size and forecasts by region and country, in consumption value ($ Million), 2018-2029

Global Patient Management and Monitoring App market size and forecasts, by Type and by Application, in consumption value ($ Million), 2018-2029

Global Patient Management and Monitoring App market shares of main players, in revenue ($ Million), 2018-2023

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

+44 20 8123 2220
info@marketpublishers.com

To assess the growth potential for Patient Management and Monitoring App

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Patient Management and Monitoring App market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Qualcomm Technologies, Samsung Electronics Co, SoftServe, Telefonica S.A.Withings and ZTE Corporation, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Market segmentation

Patient Management and Monitoring App market is split by Type and by Application. For the period 2018-2029, the growth among segments provide accurate calculations and forecasts for consumption value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by regions, regional analysis covers

North America (United States, Canada, and Mexico)

Europe (Germany, France, UK, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Japan, South Korea, India, Southeast Asia, Australia and Rest of Asia-Pacific)

South America (Brazil, Argentina and Rest of South America)

Middle East & Africa (Turkey, Saudi Arabia, UAE, Rest of Middle East & Africa)

The content of the study subjects, includes a total of 13 chapters:

Chapter 1, to describe Patient Management and Monitoring App product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top players of Patient Management and Monitoring App, with revenue, gross margin and global market share of Patient Management and Monitoring App from 2018 to 2023.

Chapter 3, the Patient Management and Monitoring App competitive situation, revenue and global market share of top players are analyzed emphatically by landscape contrast.

Chapter 4 and 5, to segment the market size by Type and application, with consumption value and growth rate by Type, application, from 2018 to 2029.

Chapter 6, 7, 8, 9, and 10, to break the market size data at the country level, with revenue and market share for key countries in the world, from 2018 to 2023.and Patient Management and Monitoring App market forecast, by regions, type and application, with consumption value, from 2024 to 2029.
