Abstracts

According to our (Global Info Research) latest study, the global Payables Supply Chain Finance market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period.

Payables Supply Chain Finance (PSCF) is a buyer-led programme within which sellers in the buyer's supply chain are able to access finance by means of receivables purchase. This means that the seller can receive an early payment from a finance provider for the invoices that the buyer has approved, at a discounted rate that reflects the buyer's credit risk. The buyer pays the full amount of the invoice to the finance provider on the due date. PSCF can help both buyers and sellers optimize their working capital, improve their cash flow and strengthen their supply chain relationships.
