Abstracts

The global Peptide Skincare market size is expected to reach \$ 4665.3 million by 2029, rising at a market growth of 11.8% CAGR during the forecast period (2023-2029).

Global key players of peptide skincare include Est?e Lauder, L'Or?al, Procter & Gamble, Unilever, Shiseido, etc. The top five players hold a share about 40%. Europe is the largest producer, has a share about 35%, followed by North America and China, with share 32% and 18%, respectively. Europe and Asia-Pacific are the two largest markets, both have a share about 32%, followed by North America, with share 29%.

Peptides are one of the most talked-about ingredients in the field of anti-ageing skincare. When applied to your skin, they demonstrate remarkable benefits, revitalising your skin and making it more resilient and stronger. But peptides do not possess magical properties, as some brands claim. The fact is that there is no single ingredient that will address all the signs of skin ageing - and peptides are no exception. Peptides are a great asset to your skin, but it's best to be realistic in your expectations to avoid disappointment. Peptides have amazing benefits for skin but the results will never be the same as a cosmetic procedure. Peptides are short chains of amino acids that act as building blocks of proteins such as collagen, elastin and keratin. These proteins are the foundations of your skin and are responsible for its texture, strength and resilience. Without peptides, our skin is less intact which can lead to a loss of firmness, the appearance of wrinkles, a change in texture and less 'bounce'. When applied topically to the skin, peptides act as little messengers, triggering skin cells to perform specific functions such as building collagen and elastin, encouraging skin to look and act younger. Extensive scientific research has proven that peptides can support your skin on multiple levels, for example firming, soothing and hydrating the skin.

This report studies the global Peptide Skincare production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Peptide Skincare, and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2022 as the base year. This report explores demand trends and competition, as well as details the characteristics of Peptide Skincare that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Peptide Skincare total production and demand, 2018-2029, (K Units)

Global Peptide Skincare total production value, 2018-2029, (USD Million)

Global Peptide Skincare production by region & country, production, value, CAGR, 2018-2029, (USD Million) & (K Units)

Global Peptide Skincare consumption by region & country, CAGR, 2018-2029 & (K Units)

U.S. VS China: Peptide Skincare domestic production, consumption, key domestic manufacturers and share

Global Peptide Skincare production by manufacturer, production, price, value and market share 2018-2023, (USD Million) & (K Units)

Global Peptide Skincare production by Type, production, value, CAGR, 2018-2029, (USD Million) & (K Units)

Global Peptide Skincare production by Application production, value, CAGR, 2018-2029, (USD Million) & (K Units)

This reports profiles key players in the global Peptide Skincare market based on the following parameters – company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include L'Oréal, Estée Lauder, Unilever, Procter & Gamble, Avon Products (Natura &Co), Shiseido, Colgate-Palmolive, Geoskincare (nzs skincare) and Revision Skincare, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Peptide Skincare market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), volume (production, consumption) & (K Units) and average price (US\$/Unit) by manufacturer, by Type, and by Application. Data is given for the years 2018-2029 by year with 2022 as the base year, 2023 as the estimate year, and 2024-2029 as the forecast year.
