Abstracts

According to our (Global Info Research) latest study, the global Personalized Children Books market size was valued at US\$ 585 million in 2024 and is forecast to a readjusted size of USD 1069 million by 2031 with a CAGR of 9.0% during review period.

In this report, we will assess the current U.S. tariff framework alongside international policy adaptations, analyzing their effects on competitive market structures, regional economic dynamics, and supply chain resilience.

Personalized children's books are customized books printed according to the reader's name, appearance, interests or specific story elements, usually combined with digital printing technology to achieve 'printing from one book'. The content can include the child's name, image, family members, pets, etc., making them the protagonist of the story, enhancing interactivity and educational significance. This type of book is often used for parent-child reading, early childhood enlightenment or commemorative gifts, meeting parents' needs for unique and exclusive children's books.
