Abstracts

The global Personalized Reading Platform market size is expected to reach \$ 3698 million by 2032, rising at a market growth of 11.1% CAGR during the forecast period (2026-2032).

A personalized reading platform is a digital platform that utilizes artificial intelligence, big data analytics, and educational technology to provide readers with tailored reading content and learning experiences. Its core objective is to recommend the most suitable books, articles, or learning materials based on the user's interests, reading habits, comprehension level, and learning goals, thereby enhancing reading interest, lowering the reading threshold, and improving reading comprehension efficiency.

Key features of a personalized reading platform include user reading profiles, intelligent content recommendation, adaptive text difficulty, personalized reading assistance, and a closed-loop reading data system.

This report studies the global Personalized Reading Platform demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Personalized Reading Platform, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Personalized Reading Platform that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Personalized Reading Platform total market, 2021-2032, (USD Million)

Global Personalized Reading Platform total market by region & country, CAGR, 2021-2032, (USD Million)

U.S. VS China: Personalized Reading Platform total market, key domestic companies, and share, (USD Million)

Global Personalized Reading Platform revenue by player, revenue and market share 2021-2026, (USD Million)

Global Personalized Reading Platform total market by Type, CAGR, 2021-2032, (USD Million)

Global Personalized Reading Platform total market by Application, CAGR, 2021-2032, (USD Million)

This report profiles major players in the global Personalized Reading Platform market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Renaissance, Curriculum Associates, Epic!, The StoryGraph, Goodreads, Squla, iReader, ByteDance, LAIX, Honghua Duoduo, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the world Personalized Reading Platform market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), by player, by regions, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.
