Abstracts

Pet Training Pads are one of the most effective house training and pet hygiene products in the pet care industry. Pet Pads are constructed with a super absorbent core and plastic film bottom to absorb the messes of dogs, puppies, and beyond. Pet diapers—just like those designed for human infants or adults with incontinence issues—contain the pet's waste for easy disposal. There are both cloth and disposable dog diapers. Cloth diapers cost more initially but are reusable. Disposable diapers are easy to use but end up in the landfill, and costs add up over time.
