Pet Washing & Groomings refer to professional services providing cleaning, beautification, and health care for pets (primarily dogs and cats). These include bathing, hair trimming, brushing, nail trimming, ear cleaning, skin care, and styling. The purpose extends beyond maintaining a pet's neat and attractive appearance to preventing skin diseases, parasites, and other health issues. With the rise in pet ownership and the growing trend of “humanizing” pet consumption, pet grooming has evolved from basic cleaning into a comprehensive service integrating health management, styling, and leisure care. Primary industry models include in-store grooming, mobile grooming services, and online booking platforms, widely applied across related sectors such as pet retail, veterinary care, and boarding/leisure facilities.
