## Abstracts

According to our (Global Info Research) latest study, the global Pharmaceutical Release Testing market size was valued at US\$ million in 2024 and is forecast to a readjusted size of USD million by 2031 with a CAGR of %during review period.

Release testing covers a variety of tests to address the purity, concentration, consistency, identity and safety of the product. Typical testing would comprise of appearance, assay and impurities, dissolution and microbial testing. Good Manufacturing Practice (GMP) batch release testing is a necessary requirement to ensure high quality pharmaceuticals and biopharmaceuticals prior to release for sale, supply or export. A batch release is a certification of a medicinal product or a drug by an authorized person. The batch release must be done before the products are introduced into free trade.

The global pharmaceutical market is 1475 billion USD in 2022, growing at a CAGR of 5% during the next six years. The pharmaceutical market includes chemical drugs and biological drugs. For biologics is expected to 381 billion USD in 2022. In comparison, the chemical drug market is estimated to increase from 1005 billion in 2018 to 1094 billion U.S. dollars in 2022. The pharmaceutical market factors such as increasing demand for healthcare, technological advancements, and the rising prevalence of chronic diseases, increase in funding from private & government organizations for development of pharmaceutical manufacturing segments and rise in R&D activities for drugs. However, the industry also faces challenges such as stringent regulations, high costs of research and development, and patent expirations. Companies need to continuously innovate and adapt to these challenges to stay competitive in the market and ensure their products reach patients in need. Additionally, the COVID-19 pandemic

has highlighted the importance of vaccine development and supply chain management, further emphasizing the need for pharmaceutical companies to be agile and responsive to emerging public health needs.
