Abstracts

The global Plastic Buttons market size is expected to reach $ 1891 million by 2032, rising at a market growth of 3.3% CAGR during the forecast period (2026-2032).

In 2025, global plastic button sales volume reached approximately 151.3 Billion Pcs, with an average selling price of about US$9.65 per 1,000 Pcs. Plastic buttons are garment accessory components made primarily from synthetic resins or engineering plastics, including polyester resin, urea resin, ABS, acrylic, nylon and POM, through processes such as casting, injection molding, compression molding, cutting, drilling, dyeing and surface finishing. Major product forms include two-hole buttons, four-hole buttons, shank buttons, tunnel-back buttons and other specialized structures. These products provide both fastening and decorative functions, while material formulation, structural design, color, texture and surface treatment enable wash resistance, wear resistance, lightweight performance, mass customization and differentiated appearance for applications in apparel, footwear, bags, home textiles and craft products.

Growth in the plastic buttons market is primarily supported by the steady expansion of global apparel production, the continued relocation of garment manufacturing to South and Southeast Asia, and rising demand from workwear, uniforms and children’s apparel. Compared with natural-material and metal buttons, plastic buttons offer lower costs, lighter weight, broader color and design flexibility, and strong suitability for automated mass production, helping fast-fashion brands and garment manufacturers meet shorter lead times and customization requirements. Increasing adoption of recycled polyester, bio-based resins and lower-impact coloring processes is also encouraging product upgrades. As apparel brands impose stricter requirements for supply-chain compliance, wash resistance, color consistency and traceability, manufacturers with scalable production, rapid sampling and recognized sustainability

credentials are likely to gain market share.

Report Scope

This report studies the global Plastic Buttons production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Plastic Buttons and provides market size (US$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Plastic Buttons that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Plastic Buttons total production and demand, 2021-2032, (K Pcs)

Global Plastic Buttons total production value, 2021-2032, (USD Million)

Global Plastic Buttons production by region & country, production, value, CAGR, 2021-2032, (USD Million) & (K Pcs), (based on production site)

Global Plastic Buttons consumption by region & country, CAGR, 2021-2032 & (K Pcs)

U.S. VS China: Plastic Buttons domestic production, consumption, key domestic manufacturers and share

Global Plastic Buttons production by manufacturer, production, price, value and market share 2021-2026, (USD Million) & (K Pcs)

Global Plastic Buttons production by Type, production, value, CAGR, 2021-2032, (USD Million) & (K Pcs)

Global Plastic Buttons production by Application, production, value, CAGR, 2021-2032, (USD Million) & (K Pcs)

This report profiles key players in the global Plastic Buttons market based on the

following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Emsig Manufacturing Corporation, MORITO CO., LTD., Augsburger Knopffabrik, ARC Buttons sp. z o.o., Louropel – F?brica de Bot?es, Lda., Manuel de Sousa Lopes, S.A., F?brica de Bot?es Elite, Lda., GRITTI Group S.p.A., Maribert S.r.l., Bottonificio Belotti Snc, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Plastic Buttons market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US$ Millions), volume (production, consumption) & (K Pcs) and average price (US$/K Pcs) by manufacturer, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.
