Polyamide Hot melt adhesives downstream are wide, and the major fields are shoes & textile, Automotive, woodworking, etc. In recent years, social economy has developed rapidly. For demand market of Polyamide hot melt adhesives, there is also a certain space in the next few years, especially in the Chinese market which is increasing with the rapid development of downstream industry.

The entire market is dominated by several giants. They all have a mature sales network. So the entire market is trending toward direct sales or their agents, rather than using distributors. This is observed even more acutely among foreign suppliers, who

historically relied more heavily on distributor companies. But for other small manufacturers, distribution is still an important channel to expand the market. For example, Chinese enterprises are a typical example.
