Global 5 largest manufacturers of Polyurethane Sealants are Henkel, Sika, Arkema, H.B. Fuller and Soudal, which make up over 35%. Among them, Henkel is the leader with about 15% market share.

Asia-Pacific is the largest market, with a share over 50%, followed by North America and Europe, with the share about 20% and 25%. In terms of product type, Single Component occupy the largest share of the total market, over 85%. And in terms of application, the largest application is Building & Construction, followed by Automotive and Industrial.

Polyurethane sealants are a type of sealants that are formulated using polyurethane polymers. They are designed to provide a flexible and durable seal between various substrates, such as metals, plastics, concrete, wood, and glass.

Polyurethane sealants are known for their excellent adhesion properties, which allow them to bond strongly to a wide range of surfaces, creating a watertight and airtight seal. They can accommodate slight movements and expansion and contraction of materials, making them suitable for applications where flexibility is required.
