Abstracts

The global Pool Cleaners market size is expected to reach \$ 2927 million by 2032, rising at a market growth of 8.3% CAGR during the forecast period (2026-2032).

The Pool Cleaners is a cleaning device for swimming pool cleaning needs. It can crawl on the bottom of the pool, wrap around, repeatedly clean the dirt in the pool, filter the pool water, store garbage, and make the pool water clear and new. The sediment in the water is sucked into the machine by a motor, filtered through a filter in the machine, and the clean water is discharged to achieve a clean effect.

As for the global pool cleaners industry, Zodiac profits most, while Maytronics and Pentair ranked 2 and 3. The market share of them is 29%, 17% and 11%.

The driving factors of the pool cleaner market mainly include the following aspects:

1. Increase in the number of swimming pools

With people's emphasis on home leisure and the improvement of living standards, more and more families choose to build swimming pools at home, which provides a broad demand space for the pool cleaner market. Commercial places such as hotels and resorts have also built or maintained swimming pools in order to improve service quality, further promoting the market demand for pool cleaners.

2. Technological progress and innovation

The development of robotics and artificial intelligence has made pool cleaners more efficient and intelligent. Modern pool cleaners usually have functions such as

autonomous navigation, intelligent obstacle avoidance, and remote control, which greatly improves cleaning efficiency and user experience. In addition, with the continuous innovation of sensors, map functions and advanced navigation systems, the performance of pool cleaners will continue to improve to meet the needs of more consumers.

3. The need to save time

Modern people have a fast pace of life, and more and more consumers hope to save time and energy through automated products. Pool cleaners can automatically complete cleaning tasks, allowing users to have more time to enjoy leisure time. This feature has attracted the attention of a large number of consumers.

4. Improvement of environmental awareness

With the increase of environmental awareness, consumers are more and more inclined to choose environmentally friendly and energy-saving pool cleaning solutions. Many pool cleaners are designed to reduce the use of water and chemicals, which is in line with the green living concept of modern society. This trend has driven the growth of market demand for environmentally friendly pool cleaners.

5. Improved cleaning efficiency and performance

Compared with traditional cleaning methods, pool cleaners can provide more comprehensive coverage and cleaning capabilities, effectively reach every corner of the pool, and ensure thorough cleaning. This advantage makes pool cleaners perform well in maintaining pool hygiene and meets consumers' high requirements for pool water quality and hygiene.

6. Policy support and market promotion

Governments' support policies for environmental protection and energy-saving industries also provide strong guarantees for the pool cleaner market. At the same time, manufacturers and channel operators have increased consumers' awareness and acceptance of pool cleaners through marketing activities, further promoting the development of the market.

In summary, the driving factors of the pool cleaner market include the increase in pool ownership, technological progress and innovation, the need to save time, the

improvement of environmental awareness, the improvement of cleaning efficiency and performance, and policy support and market promotion. These factors work together to promote the rapid development and widespread application of the pool cleaner market.

This report studies the global Pool Cleaners production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Pool Cleaners and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Pool Cleaners that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Pool Cleaners total production and demand, 2021-2032, (K Units)

Global Pool Cleaners total production value, 2021-2032, (USD Million)

Global Pool Cleaners production by region & country, production, value, CAGR, 2021-2032, (USD Million) & (K Units), (based on production site)

Global Pool Cleaners consumption by region & country, CAGR, 2021-2032 & (K Units)

U.S. VS China: Pool Cleaners domestic production, consumption, key domestic manufacturers and share

Global Pool Cleaners production by manufacturer, production, price, value and market share 2021-2026, (USD Million) & (K Units)

Global Pool Cleaners production by Type, production, value, CAGR, 2021-2032, (USD Million) & (K Units)

Global Pool Cleaners production by Application, production, value, CAGR, 2021-2032, (USD Million) & (K Units)

This report profiles key players in the global Pool Cleaners market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies

covered as a part of this study include Zodiac, Maytronics, Pentair, Hayward, Fluidra, Irobot, Desjoyaux, WaterCo, Xiamen Fast Cleaner, Kokido Service S.L, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Pool Cleaners market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), volume (production, consumption) & (K Units) and average price (USD/Unit) by manufacturer, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.
