According to our (Global Info Research) latest study, the global Portable Bathroom Trailer Rental market size was valued at US\$ 187 million in 2025 and is forecast to a readjusted size of US\$ 300 million by 2032 with a CAGR of 6.9% during review period.

Portable bathroom trailers are towable, self-contained units equipped with multiple flushing toilets, sinks with running water, lighting, climate control, and electrical systems. Unlike single-unit portable toilets, trailers offer a premium, restroom-like experience in temporary or remote locations. The rental model involves delivery, setup, maintenance, servicing (pumping, restocking), and eventual removal.

The Global Portable Bathroom Trailer Rental Market is a specialized, service-oriented segment within the broader sanitation, events, and construction support industries. This market addresses the growing demand for premium, high-capacity, and aesthetically pleasing temporary sanitation solutions that bridge the gap between standard construction-site portable toilets and permanent building infrastructure. Growth is driven by the global expansion of outdoor events, increasing expectations for event quality and guest experience, construction workforce welfare standards, and disaster relief preparedness.
