According to our (Global Info Research) latest study, the global Portable Camping Gear market size was valued at USD 666.3 million in 2022 and is forecast to a readjusted size of USD 936.6 million by 2029 with a CAGR of 5.0% during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

The biggest difference between the self-inflating mattress is that in addition to air, there is also a thermal insulation foam filling material, which plays a role in comfort and warmth. Body heat is less likely to dissipate from the floor through the mattress at night. Advantages: Warm and supportive. Inflating is simple, just open the inflation valve, flatten the mattress, and the air will fill itself through the inhalation valve. Disadvantages: bulky, relatively heavy weight.
