According to our (Global Info Research) latest study, the global Portable Gas Stove market size was valued at USD 875 million in 2023 and is forecast to a readjusted size of USD 1167.9 million by 2030 with a CAGR of 4.2% during review period.

A portable gas stove is a compact and lightweight cooking appliance that is powered by gas fuel, usually butane or propane. It is designed for outdoor use, making it ideal for camping, picnics, backpacking, and other activities where a portable cooking solution is needed.

Portable gas stoves are convenient and easy to use. They typically consist of a burner, a fuel canister, and a regulator/control knob for adjusting the flame intensity. The burner is where the gas is ignited, and the flame provides heat for cooking. The fuel canister contains the gas fuel, which is connected to the burner through a hose or a built-in system.

These stoves are known for their portability, as they are compact and lightweight, making them easy to carry in a backpack or camping gear. They are also easy to set up, with most models requiring only a simple assembly and connection of the fuel canister.

Portable gas stoves offer a reliable and efficient cooking solution outdoors. They provide instant heat and can quickly boil water or cook various meals. The flame intensity can be adjusted to control the cooking temperature.

Safety features are often incorporated into portable gas stoves, such as automatic shut-

off mechanisms to prevent gas leaks and flame extinguishing devices. However, it is important to handle the stove cautiously and follow the manufacturer's instructions to ensure safe usage.

Regular maintenance is required for a portable gas stove, including cleaning the burner and checking the fuel canister for any leakage or damage. It is also essential to carry spare fuel canisters when venturing into remote areas.

Overall, a portable gas stove offers convenience and versatility for outdoor cooking, providing a practical solution for those who enjoy camping or engaging in other outdoor activities.
