## Abstracts

The global Portable Hotspot Rental market size is expected to reach \$ 2399 million by 2032, rising at a market growth of 5.2% CAGR during the forecast period (2026-2032).

Portable hotspot rental refers to the short-term or periodic use of portable wireless network devices provided by telecommunications service providers or professional rental platforms to individual or corporate users. Users pay a rental fee to obtain a stable internet connection during travel, business trips, exhibitions, or temporary office work, without needing a local SIM card or long-term contract. This service typically includes data plans, device maintenance, technical support, and cross-border network coverage. Its core value lies in convenient access, controllable cost, and global roaming capabilities.

With the continued recovery of global tourism and cross-border business activities, and the rise of new work styles such as remote work and digital nomadism, the demand for portable hotspot rental is steadily increasing. At the same time, the widespread adoption of 5G networks and the development of eSIM technology have improved connection quality and ease of use, making 'being online anytime, anywhere' a necessity. Although some users may be diverted by international roaming plans or local SIM/eSIMs, the rental model still has significant advantages in scenarios such as multi-device sharing, short stays, and corporate group travel. In the future, with the increase in IoT devices, the rise in cross-border data demand, and the expansion of high-density network scenarios such as exhibitions and events, the industry will upgrade to an integrated service of 'device + traffic + platform management' and maintain rapid growth in the Asia-Pacific and emerging markets.

This report studies the global Portable Hotspot Rental demand, key companies, and key

regions.

This report is a detailed and comprehensive analysis of the world market for Portable Hotspot Rental, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Portable Hotspot Rental that contribute to its increasing demand across many markets.

### **Highlights and key features of the study**

Global Portable Hotspot Rental total market, 2021-2032, (USD Million)

Global Portable Hotspot Rental total market by region & country, CAGR, 2021-2032, (USD Million)

U.S. VS China: Portable Hotspot Rental total market, key domestic companies, and share, (USD Million)

Global Portable Hotspot Rental revenue by player, revenue and market share 2021-2026, (USD Million)

Global Portable Hotspot Rental total market by Rental Options, CAGR, 2021-2032, (USD Million)

Global Portable Hotspot Rental total market by Application, CAGR, 2021-2032, (USD Million)

This report profiles major players in the global Portable Hotspot Rental market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include TravelWifi, Pinjam Wifi, Rent-WiFi, GlocalMe, Japan Wireless, Hippocketwifi, eTech Rentals, My Webspot, WiTourist, JAL ABC, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the world Portable Hotspot Rental market

**Detailed Segmentation:**

Each section contains quantitative market data including market by value (US\$ Millions), by player, by regions, by Rental Options, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.
