Abstracts

According to our latest research, the global Post Construction Cleaning Services market size will reach USD 660 million in 2031, growing at a CAGR of 8.5% over the analysis period.

Post Construction Cleaning Services refer to the service that after the new house renovation project is fully completed and the construction workers have left the site, but before the furniture is brought in, a professional cleaning team uses professional tools, cleaning agents and standardized processes to conduct a comprehensive and in-depth cleaning of the construction waste, dust, paint traces, etc. left over from the renovation. Its core goal is to completely remove decoration pollution, eliminate sanitary dead corners, create a clean and tidy living environment for the owner that can be moved in directly, and avoid cleaning dead corners after the subsequent furniture is brought in.
