Abstracts

According to our (Global Info Research) latest study, the global Postpartum Rehabilitation Service market size was valued at US\$ 700 million in 2024 and is forecast to a readjusted size of USD 1367 million by 2031 with a CAGR of 10.2% during review period.

Postnatal rehabilitation helps new mothers to recover effectively following pregnancy and delivery. Provided by therapists specialised in women's health, postnatal rehabilitation enables mothers to return to enjoying a happy, healthy lifestyle with their family.

According to World Bank statistics, the global birth rate in 2021 will be about 1.7%. Although the population growth rate has slowed down, with the development of the world economy and the continuous increase of residents' per capita disposable income, residents' consumption power has also increased. There is still no postpartum recovery center that can comprehensively care for the health of mothers and infants, which is far from meeting the needs of the growing population. Expanded postpartum repair market demand.
