## Abstracts

According to our (Global Info Research) latest study, the global Pore Strips market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

While their contribution isn't as dominant as that of anti-ageing creams, gels, moisturizers and face masks, pore strips will continue to be recognized as a key product segment in the global cosmetics industry.
