Abstracts

Potassium Metabisulfite, also called potassium pyrosulfite, is a white to faintly yellowish crystalline powder with a pungent sulfur odour. The main use for the chemical is as an antioxidant or chemical sterilant.

It is a disulfite and is chemically very similar to sodium metabisulfite, with which it is sometimes used interchangeably. It is better than sodium metabisulfite because it does not add sodium to one's diet.

Scope of the Report:

This report focuses on the Potassium Metabisulfite in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

In the world wide, Most of manufactures mainly distribute in Europe India and China. Europe has a long history and unshakable status in this industry, like BASF and Essenco, both have perfect products. As to India, the number of the Potassium Metabisulfite players is far more than other areas.

In China, the manufactures are located in Shandong province, and the price within China almost double compared to the export price because of the fierce competition in foreign markets.
