Abstracts

Catamarans are multi-hulled boats and are considered as luxury cruising yachts. Catamarans offer multiple advantages such as enhanced stability, speed, and maneuverability over other marine alternatives such as boats, yachts, and monohulls. This has led to high adoption of catamarans for various applications including sports and recreational purposes. The average speed of catamarans is 300 nautical miles (560 km) per day, which can be as much as 400 nautical miles for sporting events.

Scope of the Report:

This report focuses on the Powered Catamaran in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Catamarans provide ample space, improved stability, due to support from two hulls, high speed, level sailing due to lack of heeling, and safety. This are among the major benefits that has in turn, led to growth of the market over the forecast period (2018–2025).

The worldwide market for Powered Catamaran is expected to grow at a CAGR of roughly 4.8% over the next five years, will reach 1550 million US\$ in 2023, from 1170 million US\$ in 2017, according to a new GIR (Global Info Research) study.
