Precious Metals Allocated Storage is a regulated, fiduciary custodial service for physical precious metals (gold, silver, platinum, palladium, rhodium, and other platinum group metals) defined by the London Bullion Market Association (LBMA) as an arrangement where the client holds full, exclusive, direct legal and beneficial ownership of specific, individually identifiable physical precious metal assets held in custody by a licensed vault operator or dealer. This is the fundamental distinction from unallocated storage, where the client holds only a general creditor claim against the provider, with no title to specific physical assets.
