Abstracts

The global Private Custom Tour market size is expected to reach \$ 28646 million by 2032, rising at a market growth of 7.6% CAGR during the forecast period (2026-2032).

Private Custom Tour is a personalized travel service designed and executed by a travel agency, destination management company (DMC), or high-end travel service provider based on the client's travel dates, budget, interests, number of companions, accommodation standards, transportation methods, and experience requirements. It typically includes exclusive itinerary planning, a private guide, private transportation, customized accommodations, unique experiences, restaurant reservations, visa/insurance assistance, and full-time concierge service, distinguishing it from standard group tours and fixed-route products.

The market is expanding from 'high-end niche services' to 'mainstream personalized travel products.' High-net-worth individuals, families, honeymooners, senior citizens, and small groups are increasingly opting for private, flexible, safe, and in-depth experiences. Around 2025, tourism consumption trends will clearly shift towards highly personalized and customized travel, with tourists placing greater emphasis on exclusive experiences, cultural immersion, slow travel, local expert guidance, and non-standardized destinations.

This report studies the global Private Custom Tour demand, key companies, and key regions.
