Abstracts

The global Probiotics Gummies market size is expected to reach \$ 323 million by 2032, rising at a market growth of 5.6% CAGR during the forecast period (2026-2032).

In the humble human gut, there are hundreds of trillions of bacterial occupants, and they're not just living there — they're working for you. Gut flora makes up 70–80 percent of the human immune system. Adding good bacteria, called probiotics, protects the digestive tract from the harmful bacteria in sugars, pesticides, and saturated fats. Too much bad bacteria can inflame and destroy intestinal walls, enter the bloodstream, and trigger a multitude of health issues — constipation, depression, skin problems, autoimmune disease, and even bad breath. Incorporating probiotics can help.

Digestive Advantage, Walgreens, CVS Pharmacy, Renew Life and Nature's Bounty are the leaders of the Probiotics Gummies industry, which take about 40% market share. North America is the major region of the global market, which takes about 55% market share.
