According to our (Global Info Research) latest study, the global Proctoring Solution for Online Exams market size was valued at USD 757.4 million in 2023 and is forecast to a readjusted size of USD 1511.5 million by 2030 with a CAGR of 10.4% during review period.

Proctoring Solution for Online Exams is a feature that enables proctors to extend their reach beyond geographical boundaries, allowing them to assess candidates from any location, and that is subject to the availability of the computer and a high-speed internet connection. Combining technologies like online monitoring software and video streaming with the conventional methods of invigilation can work wonders to keep cheating and other unfair activities at bay.

In a remotely proctored exam, the process includes installing software that keeps track of the candidate's test activity using his/her computer screen, utilizing the webcam to record every detail, and harnessing the power of AI to analyze the student's actions during the exam. After the test gets completed, the data from the software is used in validating the examinee's identity and maintaining the integrity of a testing environment.

Proctoring Solution for Online Exams offers unparalleled ease to proctors, helping them ensure the integrity of online assessments. The system allows invigilators to monitor candidates from afar and help them conduct time-bound exams with the utmost ease.
