Abstracts

The educational robot market is segmented on the basis of components into hardware and software. The hardware component is subsegmented into sensor, actuator, power source, control system/controller, and others. The other components include body material and other electronic, electrical, and mechanical components. The educational robot market for software is expected to grow at a higher CAGR during the forecast period. As the technological advancement will lead to growing complexity in terms of features such as inter device connectivity, AI, and autonomous operations, the value of the software part in the overall market will increase more than that of hardware. Also, the software will assist the complex functionalities to process efficiently and accurately.

SCOPE OF THE REPORT:

This report studies the Product Name market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Product Name market by product type and applications/end industries.
The global Product Name market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of 15.4% between 2017 and 2023.
The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

Market Segment by Companies, this report covers

Softbank

Robotis

Pal Robotics

Hanson Robotics

Qihan Technology Co.

DST Robot Co.

Probotics America

Wonder Workshop

Aisoy Robotics

Blue Frog Robotics

Market Segment by Regions, regional analysis covers

North America (United States, Canada and Mexico)

Europe (Germany, France, UK, Russia and Italy)

Asia-Pacific (China, Japan, Korea, India and Southeast Asia)

South America (Brazil, Argentina, Colombia)
