Abstracts

The global Product Recall Insurance market size is expected to reach \$ 17160 million by 2029, rising at a market growth of 9.3% CAGR during the forecast period (2023-2029).

With the advancement of science and technology and the development of manufacturing industry, the complexity of products continues to increase, and the risk of product recalls also increases. This may also prompt more companies to choose to purchase product recall insurance to transfer risks.

Product recall insurance refers to a type of insurance that allows the product to be recalled and compensate for related costs due to product defects that may still cause harm to consumers' personal and property safety even if used correctly.

This report studies the global Product Recall Insurance demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Product Recall Insurance, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2022 as the base year. This report explores demand trends and competition, as well as details the characteristics of Product Recall Insurance that contribute to its increasing demand across many markets.
