Goalkeeper gloves are a piece of equipment used exclusively by goalkeepers in soccer. The goalkeeper is the only football player who can touch the ball with his hands. They are responsible for preventing goals and stopping high-speed shots, most goalkeepers will wear some form of gloves. Goalkeeper gloves are thick and padded. One of the main benefits goalkeeper gloves offer is increased grip. Trying to catch high speed shots is often very difficult and wearing gloves will help the goalie catch the ball when the ball is shot at high speed. These gloves use latex to provide stickiness to the palm and fingers. They consist of multiple layers of thick cloth or foam to help protect hands and fingers from hard blows.
