## Abstracts

According to our (Global Info Research) latest study, the global Professional Pet Care Management Software market size was valued at US\$ 152 million in 2025 and is forecast to a readjusted size of US\$ 238 million by 2032 with a CAGR of 6.6% during review period.

Professional pet care management software is an integrated digital operation platform designed specifically for pet service agencies such as pet beauty salons, pet boarding centers, pet training institutions, pet daycare centers, and pet stores. By integrating customer relationship management, online appointment booking, payment systems, and marketing tools, the software helps practitioners improve operational efficiency, reduce human error, and enhance customer retention. Furthermore, the accompanying mobile app allows pet owners to access their pet's health records, receive reminders, and renew services at any time, completing the digital closed-loop service process. This not only optimizes the user experience but also drives the entire pet service industry towards professionalization, standardization, and intelligent advancement.

The development of professional pet care management software is driven by multiple factors, including the rapid growth of the pet economy, increasing demands from pet owners for professional and transparent services, intensified industry competition driving operational efficiency optimization, increased management complexity due to the integration of multiple business models, and the widespread adoption of mobile internet and SaaS technologies lowering the barriers to digitalization. As pets are seen as family members, customers expect personalized, traceable, and convenient service experiences, prompting pet service providers to leverage digital tools to maintain customer relationships, standardize service processes, and make data-driven decisions.

At the same time, the demand for access to ecosystem resources such as payment, insurance, and e-commerce is accelerating the evolution of management software towards openness, intelligence, and end-to-end collaboration.

This report is a detailed and comprehensive analysis for global Professional Pet Care Management Software market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

### **Key Features:**

Global Professional Pet Care Management Software market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Professional Pet Care Management Software market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Professional Pet Care Management Software market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global Professional Pet Care Management Software market shares of main players, in revenue (\$ Million), 2021-2026

### **The Primary Objectives in This Report Are:**

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Professional Pet Care Management Software

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Professional Pet Care Management Software market based on the following parameters - company overview, revenue,

gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include DaySmart Pet, Gingr, Pawfinity, Precise Petcare, Easy Busy Pets, Revelation Pets, OctopusPro, PawLoyalty, Time To Pet, Pet Sitter Plus, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

### Market segmentation

Professional Pet Care Management Software market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.
