PTFE Lined Sight Glass refers to a type of sight glass that is lined with polytetrafluoroethylene (PTFE) material. This lining provides excellent chemical resistance and prevents corrosion, making it ideal for use in industries where harsh chemicals are present. The sight glass allows operators to visually inspect the contents of a vessel or pipeline without compromising the integrity of the system. The PTFE lining ensures that the sight glass remains durable and reliable even in demanding environments, making it a popular choice for applications in the chemical, pharmaceutical, and food processing industries.
