According to our (Global Info Research) latest study, the global PUR Bag Melter market size was valued at US\$ 75.7 million in 2024 and is forecast to a readjusted size of USD 102 million by 2031 with a CAGR of 4.4% during review period.

The PUR bag melter is a user-friendly and efficient hot melt adhesive machine that employs an on-demand melting technology, heating only the required amount of PUR adhesive when necessary, thereby reducing thermal stress and preserving the bonding characteristics of the unused adhesive. It features quick disassembly for easy cleaning and maintenance, ensuring continuous and stable operation. The machine also adjusts the force applied to the adhesive slug to optimize contact with the melting grid, minimizing adhesive residue in empty bags. Furthermore, its capability to utilize small volumes of PUR adhesive effectively enhances productivity and reduces adhesive waste.
