A push-pull chain is a type of switch that operates by pulling or pushing a chain attached to it. These switches are commonly used for lighting fixtures or ceiling fans, where a person can pull or push the chain to turn the fixture on or off, or to adjust its speed or brightness level. The chain is usually made of metal or plastic, and it may have a decorative pull or a simple knob at the end for easier use. Some modern push-pull chains also come with a remote control, allowing users to operate the fixture from a distance.
