Abstracts

The global PVB Film for Automotive Glass market size is expected to reach $ 1946 million by 2032, rising at a market growth of 6.7% CAGR during the forecast period (2026-2032).

PVB Film for Automotive Glass refers to automotive-grade polyvinyl butyral interlayer film placed between two sheets of glass and laminated under controlled temperature and pressure to produce automotive safety glass. The film retains glass fragments after breakage, absorbs impact energy and reduces occupant injury, while functional grades can additionally provide acoustic insulation, solar control, ultraviolet protection, color gradients and optical correction for head-up displays. Products mainly include standard clear film, tinted and shade-band film, acoustic film, solar-control film and HUD wedge film. Applications cover windshields, laminated side windows, panoramic roofs, sunroofs and limited rear-window glazing in passenger cars and commercial vehicles.

Key Findings

Global PVB Film for Automotive Glass production reached approximately 200 thousand tons in 2025

The average global factory-gate price was approximately US$6,000 per ton in 2025

Standard Clear PVB Film remained the largest product segment

Passenger cars represented the largest downstream vehicle segment

+357 96 030922
info@marketpublishers.com

Asia-Pacific remained the largest manufacturing and consumption region

Market Trends

PVB Film for Automotive Glass is evolving from a conventional safety interlayer toward a multifunctional material integrating acoustic insulation, solar control and optical performance. Acoustic PVB Film, Solar-Control PVB Film and HUD Wedge PVB Film are gaining adoption in premium vehicles and electric vehicles. Increasing penetration of laminated side windows and panoramic roofs is raising PVB consumption per vehicle, while recycled PVB content, bio-based plasticizers and lower-carbon manufacturing are becoming important development priorities.

Market Dynamics

Drivers

Mandatory laminated windshield requirements provide stable baseline demand. Growth in global vehicle production, larger vehicle glazing areas, increasing cabin-comfort requirements and stronger demand for ultraviolet and solar-heat control support continued market expansion.

Restraints

Automotive-grade PVB film requires strict control of optical distortion, haze, moisture content, adhesion, thickness uniformity and surface quality. Long vehicle-platform validation cycles, demanding quality traceability and dependence on high-purity PVB resin restrict the entry of new suppliers.

Opportunities

Electric vehicles create opportunities for acoustic and solar-control PVB films because quieter powertrains make wind noise more noticeable and large glass roofs increase cabin heat load. Laminated side windows, panoramic roofs, advanced HUD systems and premium replacement windshields provide additional high-value growth opportunities.

+357 96 030922
info@marketpublishers.com

Challenges

Standard automotive PVB film faces increasing price competition, particularly in the replacement-glass market. Fluctuations in polyvinyl alcohol, butyraldehyde and plasticizer prices, together with stringent OEM certification and global supply requirements, create cost and qualification pressure for smaller manufacturers.

Industry Chain Analysis

The upstream chain includes polyvinyl alcohol, n-butyraldehyde, plasticizers, ultraviolet absorbers, pigments and other functional additives. Midstream production covers PVB resin formulation, extrusion, surface texturing, multilayer co-extrusion, shade-band processing, wedge processing, quality inspection, slitting and moisture-controlled packaging. Downstream customers are automotive glass processors supplying vehicle manufacturers and the replacement-glass market. Higher value is concentrated in acoustic, solar-control, HUD wedge and other multifunctional interlayers.

Segment Insights

By primary selling function, PVB Film for Automotive Glass is divided into Standard Clear PVB Film, Tinted and Shade-Band PVB Film, Acoustic PVB Film, Solar-Control PVB Film and HUD Wedge PVB Film. Standard Clear PVB Film remains the principal high-volume product for conventional windshields and replacement glass. Tinted and Shade-Band PVB Film provides color and upper-windshield glare control, while Acoustic PVB Film improves cabin sound insulation. Solar-Control PVB Film supports thermal management, and HUD Wedge PVB Film provides optical correction for head-up display systems. Products incorporating multiple functions are classified according to their principal commercial function to avoid double counting.

Downstream Market Opportunities

Passenger cars remain the principal demand source, particularly mid-to-high-end vehicles and electric vehicles using acoustic glazing, large windshields and panoramic roofs. Commercial vehicles provide relatively stable demand for standard safety film, while the automotive aftermarket generates recurring consumption through windshield replacement. HUD and advanced driver-assistance system compatible windshields represent an attractive premium segment.

+357 96 030922
info@marketpublishers.com

Regional Insights

Asia-Pacific is the largest production and consumption region, supported by automotive and automotive-glass manufacturing in China, Japan and South Korea. Europe has stronger penetration of acoustic, solar-control and HUD products in premium vehicles. North America benefits from stable original-equipment demand and a developed replacement-glass market. China is accelerating the localization of standard automotive PVB film, although several advanced functional grades remain more dependent on established international suppliers.

Report Scope

This report studies the global PVB Film for Automotive Glass production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for PVB Film for Automotive Glass and provides market size (US$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of PVB Film for Automotive Glass that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global PVB Film for Automotive Glass total production and demand, 2021-2032, (Tons)

Global PVB Film for Automotive Glass total production value, 2021-2032, (USD Million)

Global PVB Film for Automotive Glass production by region & country, production, value, CAGR, 2021-2032, (USD Million) & (Tons), (based on production site)

Global PVB Film for Automotive Glass consumption by region & country, CAGR, 2021-2032 & (Tons)

U.S. VS China: PVB Film for Automotive Glass domestic production,

+357 96 030922
info@marketpublishers.com

consumption, key domestic manufacturers and share

Global PVB Film for Automotive Glass production by manufacturer, production, price, value and market share 2021-2026, (USD Million) & (Tons)

Global PVB Film for Automotive Glass production by Type, production, value, CAGR, 2021-2032, (USD Million) & (Tons)

Global PVB Film for Automotive Glass production by Application, production, value, CAGR, 2021-2032, (USD Million) & (Tons)

This report profiles key players in the global PVB Film for Automotive Glass market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Eastman Chemical Company, SEKISUI CHEMICAL, Kuraray, Chang Chun Group, Kingboard Holdings Limited, Zhejiang Decent New Material, Anhui Wanwei High-Tech Materials, Qingdao Jiahua Plastics, Huakai Plastic, Huzhou Xinfu New Material, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World PVB Film for Automotive Glass market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US$ Millions), volume (production, consumption) & (Tons) and average price (US$/Ton) by manufacturer, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.

Key Questions Answered

1. How big is the global PVB Film for Automotive Glass market?
2. What is the demand of the global PVB Film for Automotive Glass market?
3. What is the year over year growth of the global PVB Film for Automotive Glass market?
4. What is the total value of the global PVB Film for Automotive Glass market?
5. Who are the Major Players in the global PVB Film for Automotive Glass market?
6. What are the growth factors driving the market demand?

Contents

1 SUPPLY SUMMARY

1.1 PVB Film for Automotive Glass Introduction
1.2 World PVB Film for Automotive Glass Supply & Forecast
  1.2.1 World PVB Film for Automotive Glass Production Value (2021 & 2025 & 2032)
  1.2.2 World PVB Film for Automotive Glass Production (2021-2032)
  1.2.3 World PVB Film for Automotive Glass Pricing Trends (2021-2032)
1.3 World PVB Film for Automotive Glass Production by Region (Based on Production Site)
  1.3.1 World PVB Film for Automotive Glass Production Value by Region (2021-2032)
  1.3.2 World PVB Film for Automotive Glass Production by Region (2021-2032)
  1.3.3 World PVB Film for Automotive Glass Average Price by Region (2021-2032)
  1.3.4 North America PVB Film for Automotive Glass Production (2021-2032)
  1.3.5 Europe PVB Film for Automotive Glass Production (2021-2032)
  1.3.6 China PVB Film for Automotive Glass Production (2021-2032)
  1.3.7 Japan PVB Film for Automotive Glass Production (2021-2032)
1.4 Market Drivers, Restraints and Trends
  1.4.1 PVB Film for Automotive Glass Market Drivers
  1.4.2 Factors Affecting Demand
  1.4.3 PVB Film for Automotive Glass Major Market Trends

2 DEMAND SUMMARY

2.1 World PVB Film for Automotive Glass Demand (2021-2032)
2.2 World PVB Film for Automotive Glass Consumption by Region
  2.2.1 World PVB Film for Automotive Glass Consumption by Region (2021-2026)
  2.2.2 World PVB Film for Automotive Glass Consumption Forecast by Region (2027-2032)
2.3 United States PVB Film for Automotive Glass Consumption (2021-2032)
2.4 China PVB Film for Automotive Glass Consumption (2021-2032)
2.5 Europe PVB Film for Automotive Glass Consumption (2021-2032)
2.6 Japan PVB Film for Automotive Glass Consumption (2021-2032)
2.7 South Korea PVB Film for Automotive Glass Consumption (2021-2032)
2.8 ASEAN PVB Film for Automotive Glass Consumption (2021-2032)
2.9 India PVB Film for Automotive Glass Consumption (2021-2032)

6 MARKET ANALYSIS BY FILM STRUCTURE

6.1 World PVB Film for Automotive Glass Market Size Overview by Film Structure: 2021 VS 2025 VS 2032
6.2 Segment Introduction by Film Structure
  6.2.1 Monolayer PVB Film
  6.2.2 Multilayer PVB Film
6.3 Market Segment by Film Structure
  6.3.1 World PVB Film for Automotive Glass Production by Film Structure (2021-2032)
  6.3.2 World PVB Film for Automotive Glass Production Value by Film Structure (2021-2032)
  6.3.3 World PVB Film for Automotive Glass Average Price by Film Structure (2021-2032)

7 MARKET ANALYSIS BY INSTALLATION LOCATION

7.1 World PVB Film for Automotive Glass Market Size Overview by Installation Location: 2021 VS 2025 VS 2032
7.2 Segment Introduction by Installation Location
  7.2.1 Windshields
  7.2.2 Side Windows
  7.2.3 Panoramic Roofs and Sunroofs
  7.2.4 Rear Windows
7.3 Market Segment by Installation Location
  7.3.1 World PVB Film for Automotive Glass Production by Installation Location (2021-2032)
  7.3.2 World PVB Film for Automotive Glass Production Value by Installation Location (2021-2032)
  7.3.3 World PVB Film for Automotive Glass Average Price by Installation Location (2021-2032)

8 MARKET ANALYSIS BY APPLICATION

8.1 World PVB Film for Automotive Glass Market Size Overview by Application: 2021 VS 2025 VS 2032
8.2 Segment Introduction by Application
  8.2.1 Passenger Car
  8.2.2 Commercial Vehicle
8.3 Market Segment by Application

I would like to order

Product name: Global PVB Film for Automotive Glass Supply, Demand and Key Producers, 2026-2032

Product link: https://marketpublishers.com/r/G6A1937189D7EN.html

Price: US$ 4,480.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page https://marketpublishers.com/r/G6A1937189D7EN.html
