## Abstracts

A race slalom board is a stiff snowboard with a flat, square tail and a long effective edge for good grip. A race slalom board likes perfect groomers: if there are any bumps or crud on the slope, you will get knocked around, which means it's an early morning board. GS boards often have a few mm of taper to make them handle crud a bit better. Some racers prefer narrow boards for quick edge changes, but some racers go for wider boards that allow lower stance angles and more mobility.

According to our (Global Info Research) latest study, the global Race Slalom Snowboard market size was valued at US\$ million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of %during review period.
