Abstracts

The global Real Estate Consulting Solutions market size is expected to reach \$ 3423 million by 2032, rising at a market growth of 6.2% CAGR during the forecast period (2026-2032).

Real estate consulting solutions refer to third-party professional organizations providing independent, professional, and actionable decision support to developers, investors, owners, financial institutions, corporate tenants, governments, and public institutions. This support is provided through research on various real estate types, including land, offices, retail, industrial and logistics, hotels, data centers, life sciences, healthcare, institutional housing, student accommodation, senior living properties, public buildings, industrial parks, and mixed-use projects. Methods include market research, demographic and economic analysis, GIS and location models, transaction and leasing databases, cash flow and valuation models, development feasibility studies, optimal use analysis, portfolio diagnostics, office and corporate site selection strategies, due diligence, project and cost management consulting, ESG and climate risk assessment, data governance, and real estate technology implementation.
